### **EDUCATION**

University of Kansas

Dec 2021

Fullstack Coding Bootcamp

**Kansas State University** 

Bachelors of Science in Mechanical Engineering

May 2020

### **Work Experience**

#### Earles Engineering & Inspection Inc - Civil Engineer

Jan 2021 - Apr 2021

- Assisted civil engineers with projects involving roadway designs and improvements to replace deteriorating roads and bridges.
- · Provided engineering analysis and design options for a new water treatment plant.
- · Assisted surveyors to identify boundary lines, control points, and create topography for site work.

#### U.S Bank - Cardmember Service

July 2020 - Oct 2021

- Assisted civil engineers with projects involving roadway designs and improvements to replace deteriorating roads and bridges.
- Provided engineering analysis and design options for a new water treatment plant.
- · Assisted surveyors to identify boundary lines, control points, and create topography for site work.

### **Technical Projects**

#### This That Application - Backend

Sept 2021

- Set up database to store and retrieve data using sequelize and mysql to connect to the models
- Create endpoints to test API routes to access resources on the server

#### **Animal Application - Fullstack**

July 2021

- Created layout for html to help create event listeners for each animal category and selection
- Set up third party API to retrieve images based on animal selection

#### Wildcat Wind Power Tunnel Design - CFD Simulations

Jan 2020 - May 2021

- Created various simulations using FEA & CFD tools in SolidWorks to identify potential issues
- Competition winners based on design, efficiency, quality of technical report

# **Technical Skills**

- Python
- JavaScript
- jQuery
- Node.js,
- PostgreSQL
- MySQL

- HTML
- CSS
- Express.js
- Inquirer.js
- MATLAB
- SolidWorks (CSWA)
- AutoCAD

# Leadership Roles

#### Society of Hispanic Professional Engineers (SHPE) - Member

Aug 2017 - May 2020

• Extreme Engineering Challenge - Competed in a national competition composed of 10 people per group for a 24-hour design challenge

#### National Society of Black Engineers (NSBE) - Senator/Secretary

Aug 2017 - May 2020

- Coordinated and facilitated events such as Engineering a Dream to help students understand the importance of STEM majors.
- Developed and created relationships with secondary education schools to recruit students.
